

## **Garden State Council - Charter Renewal Instructions 2018**

### **The Boy Scouts of America has made several enhancements and changes to the Internet Rechartering system for 2018 -**

- The user interface has been redesigned to more closely match My.Scouting Tools so that it is easier to read and navigate
- Youth Protection Training is now required for all registered leaders. You won't be able to submit your charter if you have leaders who don't have current YPT.
- Your Chartered Organization Representative will be able to electronically authorize your charter renewal.
- You will now be able to pay for your charter online via credit card. The usual cash/check/unit account methods of payment will, of course, remain available.

A PDF of a presentation describing all the changes in great detail and a list of Frequently Asked Questions are available on the council website at

<http://www.gardenstatescouting.org/internet-rechartering>

Copies of all the rechartering forms and instructions are also available on this page.
