The workshop will be taught by Al Garcia, a professional Commercial Photographer, former Cubmaster and current Scoutmaster. But you don't need to be a professional photographer or have a fancy camera to participate.

This will be a hands-on workshop and you will learn how to make a great video using FREE software!

### **What you need to bring:**

- Digital still photographs and video images of your scouts in action on CD, DVD, stick/thumb drive, portable hard drive
- Laptop
- Windows 7 or 8 (Free video software may already be loaded on your computer: *Windows Live Movie Maker*. If not please download prior to class)
- Windows 10 (You may have to download *Windows Essentials 2012*, which is currently free)

*\* Check out YouTube for tutorials on how to download these programs.*

*NOTE: If you don't have a laptop we will have a limited number of desktop workstations for you to share, but you must bring a stick drive or portable hard drive that has enough capacity to download your project at the end of the session (DVD/CD will not work).*
